You're

MADE

for This.

Las Vegas Campus

You're Made for This.

Classroom Learning Is Crucial to Any Education; There's No Disputing That.

But when it comes to some disciplines, sitting at a desk listening to lectures simply isn't enough. That's where we come in. Our Carrington College® Las Vegas campus reflects this in every way. Our sleek, contemporary building houses hands-on learning tools that pick up where the books leave off, giving you real-world experience you can't find in front of a chalkboard.

These include:

- Classroom and lab designed for our Physical Therapist Assistant program, where we recreate inpatient and outpatient settings, giving you as realistic an environment in which to train as we can
- Simulation labs for students in our Respiratory Care program. These recreate for you an incredible variety of experiences, from situations you might encounter at a therapeutic care clinic to those you'd face in a neonatal intensive care unit

A Location Within Your Reach.

Our campus is located on the southeast side of Las Vegas, not far from McCarran International Airport. That means we're centrally located – and we're also close to a lot of the exciting stores and restaurants that make Las Vegas one of the hottest destinations in the world.

We are proud of our building and we are certain you'll be impressed as well. But we also know that a building is just a building, a lab is just a lab. A great learning experience can depend upon the right instructors and we have them. They're qualified and passionate; like the instructors in our Respiratory Care program who have years of clinical experience.
