CARRINGTON COLLEGE®

You're Made for This.

No, You're Not on a Real Hospital Floor – and Thankfully so – but No One Would Fault You for Thinking That You Were.

That's because the simulation lab at our Carrington College® Mesa campus is designed to look and operate like the real thing – and it does. This incredible learning system is stocked with the equipment that you will be using when you graduate, all in a setting so authentic you can practically hear the ambulances arriving. It's also equipped with a viewing gallery with flat-screen televisions so you can watch your classmates in action – watch them, that is, when you aren't participating in exercises yourself.

Yet, while the simulation lab is what often impresses our visitors the most, it's only part of our Mesa campus. We are located near the Fiesta Mall, with two individual facilities we call the Westwood campus and the Country Club campus. The Westwood campus is our main location, where you can find our Enrollment Services office, but both are within a one-mile radius of each other.

Rise to the Occasion at Carrington College.

In addition to the simulation lab, we have a Dental Hygiene clinic with X-ray machines and 30 dental chairs. And it's the real thing, open to the public.

Our campus offers more than just study and practice. We provide you the opportunity to work with real patients, with hands-on training you simply can't get in a classroom. What's more, we pride ourselves on a friendly atmosphere, shared among the students, the faculty and the public we serve. It's a great place to learn and a great place to prepare for the future. If you're in the area, please stop by and see why we are so enthusiastic about our campus.
