CARRINGTON COLLEGE®

**You're Made for This.**

**Classroom Learning Is Crucial to Any Education;  
There's No Disputing That.**

But when it comes to some disciplines, sitting at a desk listening to lectures simply isn't enough. That's where we come in. Our Carrington College® Tucson campus reflects this in every way. Our centrally located campus offers hands-on learning tools that pick up where the books leave off, giving you real-world experience you can't find in front of a chalkboard.

Our pharmacy lab is a great example of just that. Students train in our own mock pharmacy, so they learn in the same environment where they'll be working. In our Physical Therapy Technology program, students have the opportunity to learn hands-on skills from instructors with real-world experience. And in our Veterinary Assisting program, you'll get experience caring for a variety of animals.

**Location Is Key.**

We're located in the Menlo Park neighborhood of Tucson, close to I-10 and downtown, near the Commerce Park Loop. This location and its proximity to the interstate make our campus convenient not only to our Tucson residents, but to those who live in surrounding communities as well. Plus, we are only one block away from the Modern Street Car route, and the bus loop runs right past our building.

Located just across the street is a lovely park in which students might take a break or get some exercise after class.

**Begin Your Journey to Success with Us.**

Although Tucson has been home to Carrington College since 1982, we've been proud to call our new campus location home since 2014. Since the very beginning, our faculty members have earned a reputation for their experience and their friendliness. But they're also incredibly skilled.

It's a great place to learn and a great place to prepare yourself for the future. If you're in the area, please stop by and see why we are so enthusiastic about our campus.
