

CONSIDER THE BENEFITS OF HOSTING AN EXTERN

Externships

At Carrington College, we believe that as part of their education, our students must learn how health care is practiced in the real world. That's why many of our students complete an externship prior to graduation. An externship allows students to demonstrate and apply their individual skills and become a member of your health care team.

Your Benefits

- Reduce current staff work load in some areas
- Feel good about mentoring others who share your passion
- Consider hiring your extern as a "fully-trained" employee after graduation

Host An Extern. It's As Easy As 1, 2, 3

STEP
1

Learn Your Office Needs

We meet with you to understand your unique culture.

STEP
2

Provide You with Qualified Candidates

We will partner with you to match well-trained candidates to your working environment.

STEP
3

Impact a Student That Has a Passion for Your Field

Provide mentoring and feedback to enhance their skills and advance their careers.

CARRINGTON GRADS ARE SMART HIRES

Lower Your Employee Recruiting Costs, Increase Your Success

Your practice needs caring people who have technical skills and are patient focused. The hard part is finding them. Placing ads, sorting through résumés and interviewing candidates is an expensive and time consuming process and even then, you may not find the right team member.

At Carrington College, we offer a pool of health care talent with the technical skills you need and the professional attitude you demand. Our graduates are trained, professional, and ready to work.

Contact us and we can provide you with a list of candidates that meet your specific requirements. This will help you find the best person for your position, plus we'll save you time, money, and resources along the way.

Employee Recruiting Assistance

- Qualified, trained, professionals that meet your specific requirements
- Faster and more efficient than traditional methods
- Saves you time, money, and resources
