MEDICAL RADIOGRAPHY

Picture yourself with a bright future.

Medical imaging is a crucial diagnostic tool, one that radiographers are responsible for providing. They use diagnostic level radiation and instrumentation to produce medical images of the body - X-rays. Supervised by radiologists, they are responsible for proper positioning of patients and ensuring proper exposure for optimum film resolution, with the least radiation exposure. Administration of drugs and preparation of chemical mixtures are also among the responsibility of medical radiographers.

Our program covers information and skills you'll need in your career, including pathology and radiographic procedures. To help you become secure in your skills, you'll receive hands-on clinical instruction in approved health care facilities. Carrington College® helps students prepare for the national certification exam.† The program culminates in an Associate of Occupational Studies Degree.

According to the U.S. Bureau of Labor Statistics, employment of radiologic technologists is expected to increase by about 21% from 2012-2022‡

Duties May Include:

- Ensuring proper patient positioning
- Ensuring proper exposure for optimum film resolution
- Ensuring least radiation exposure to patient
- Administration of drugs and preparation of chemical mixtures

Possible Employment Opportunities:

- Physician offices
- Medical Imaging centers
- Comprehensive medical centers

ASSOCIATE DEGREE - MEDICAL RADIOGRAPHY

Student Learning Outcomes

Upon completion of the Medical Radiography program, graduates will be able to:

- Demonstrate clinical competency.
- Demonstrate effective communication skills and model professionalism.
- Demonstrate proficiency in critical thinking in the clinical environment.

Admission Requirements

In addition to meeting the College's standard admission requirements, candidates must:

- Pass the Wonderlic General Assessment of Instructional Needs (GAIN) test with a minimum score of 4 on both the English and Math components.

Progression Requirements

Prior to entering direct patient care, students must:

- Provide negative TB test results. (Test results more than 12 months old must be from a two-step test). Applicants with prior positive results must undergo a chest X-ray.
- Provide proof of childhood MMR immunization or titer.
- Provide proof of Hepatitis B vaccination or written refusal.
- Provide proof of chickenpox immunization (only students who have not had chickenpox).
- Submit to drug screening and background checks immediately prior to clinical rotations, results of which may affect eligibility to participate in clinical rotations.
