PHARMACY TECHNOLOGY

Just What The Doctor Ordered – For Your Future.

Whether taking and filling prescriptions under the supervision of a licensed pharmacist or assisting with the day-to-day functions that keep a pharmacy running smoothly, pharmacy technicians have a variety of responsibilities, working in settings that include hospitals, nursing homes and assisted living facilities, as well as retail and mail-order pharmacies.

At Carrington College® we offer classroom instruction in our Pharmacy Technology program, we also provide practical training in a mock pharmacy. There is also a clinical externship that provides more hands-on training. Subjects covered include a basic knowledge of pharmacy calculations, terminology, abbreviations and symbols that technicians use when dispensing and documenting medications, as well as drug distribution methods and systems, the chemical characteristics of drugs, how to prepare sterile dosage forms and standards of ethics and law. We also help students prepare for the Certified Pharmacy Technician (CPhT) national certification exam.† The program culminates in a Certificate of Achievement.

According to the U.S. Bureau of Labor Statistics, employment of pharmacy technicians and aides is expected to increase 20% from 2012-2022.‡

CERTIFICATE - PHARMACY TECHNOLOGY

Student Learning Outcomes

Upon completion of the Pharmacy Technology program, graduates will be able to:

- Demonstrate the skills and knowledge necessary to function as competent entry-level assistants to licensed pharmacists.
- Demonstrate proficiency in critical thinking and information management.

Certification, Licensing and Practice Information

States vary in terms of certification, licensing and scope of practice for pharmacy technicians. Generally, students must register with their state's Board to become a pharmacy technician in-training. Time frames for completion vary by state, but all states require that pharmacy technicians attain licensure.

Graduates of the Spokane program are approved to practice in the state of Washington.
