

Jessica W.
Graduate, Class of 2012

HEALTH STUDIES

Associate Degree - Completion Program

Industry advances combined with an increasing awareness of the importance of preventative care and healthy lifestyles have contributed to steady growth in the health care and vocational occupations. Carrington's Health Studies program, which culminates in an Associate of Science Degree, provides an opportunity for individuals to build on prior education to earn the educational credential that is often needed for advancement.

Offered in an online format, students in the Health Studies program enjoy the flexibility of attending school "anytime, anywhere" while continuing to work in their current jobs.
