

MASSAGE THERAPY

Certificate of Achievement Program

Massage therapists bring positive well-being to clients via therapeutic and remedial treatments. They also administer other kinds of body conditioning.

Carrington's Massage Therapy program covers massage therapy principles and techniques, including Swedish massage, sports massage and deep tissue applications, and prepares students for entry-level employment as massage therapists and/or to enter private practice. The Massage Therapy Program at all locations prepares students for the Massage & Bodywork Licensing Examination (MBLEx).* The program culminates in a Certificate of Achievement.

* Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program. Credential preparation varies by location.

Important information about the educational debt, earnings and completion rate of students who attended this program can be found at Carrington.edu/GE.

Program availability varies by location. Carrington College reserves the right to update information as it becomes available. For the most updated information, visit carrington.edu.

Individuals seeking to enter this field may be subject to screenings such as, but not limited to, criminal background checks and drug/alcohol testing prior to externship, to attain occupational licensure/certification or employment, and throughout their careers.

CPR certification is required for licensure/certification.
