

MEDICAL RADIOGRAPHY

Associate Degree Program

Radiographers are health care professionals who possess the knowledge and skills to use diagnostic-level radiation and instrumentation to produce medical images of the human body. Supervised by radiologists, radiographers are responsible for proper positioning of patients and ensuring proper exposure for optimum film resolution with the least radiation exposure to the patient. Graduates of Carrington's Medical Radiography program are eligible to apply to take the national certification exam.* The program culminates in an Associate of Occupational Studies Degree.
