

PHARMACY TECHNOLOGY

Certificate of Achievement / Associate Degree Program

The Pharmacy Technology program provides both theory and practical training, which enables technicians, upon licensure, to function as competent entry-level assistants to a licensed pharmacist.

Emma M.
Pharmacy Technology

The program offers:

- A combination of formal classroom instruction and hands-on training
- Valuable real-world experience through a clinical externship at an approved local facility
- Preparation for the Certified Pharmacy Technician (CPHT) national certification exam*

Credential preparation varies by location. The program culminates in a Certificate of Achievement or, at the California and Boise[†] campuses, an Associate of Science degree.

CARRINGTON COLLEGE®

*The Starting Point for Health Care Careers.**

877-623-1442
CARRINGTON.EDU

* Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program. Credential preparation varies by location.

† To be eligible for entrance into the Associate of Science degree program in Pharmacy Technology, applicants must have successfully completed the Certificate of Achievement program.

Important information about the educational debt, earnings and completion rate of students who attended this program can be found at Carrington.edu/GE.

Program availability varies by location. Carrington College reserves the right to update information as it becomes available. For the most updated information, visit carrington.edu.

Individuals seeking to enter this field may be subject to screenings such as, but not limited to, criminal background checks and drug/alcohol testing prior to externship, to attain occupational licensure/certification or employment, and throughout their careers.
