VETERINARY TECHNOLOGY

Associate Degree Program

The mission of the Veterinary Technology program is to provide local and global veterinary communities with ethical graduates committed to lifelong learning and professional development. Graduates will have the entry level skills and knowledge required for the contemporary veterinary practice. The core program focus is companion-animal practice, but all facets of veterinary medicine, including large animal medicine, biomedical research, and industry-related topics are emphasized. This program culminates in an Associate of Science degree in Veterinary Technology. This program prepares graduates to sit for the Veterinary Technician National Examination and the California Registered Veterinary Technician State Board Examination.*
