# RESPIRATORY CARE

## Breathe New Life Into Your Career.

Working under the supervision of a physician, respiratory care practitioners help patients to perform a basic, crucial life function: breathing. Pollution, asthma and birth defects can lead to breathing problems. Respiratory therapists work with other health care professionals to assist those who suffer from them. At Carrington College® we teach skills such as patient examination and assessment, treatment recommendation and therapeutic intervention. Graduates are prepared to sit for the registry exam.† The program culminates in an Associate of Science degree.

*According to the U.S. Bureau of Labor Statistics, employment of respiratory therapists is expected to grow by 19% from 2012-2022‡*

## Duties May Include:

- Evaluating, treating and caring for patients with cardiopulmonary disorders
- Consulting with physicians and health care staff to help develop and modify patient care plans
- Conducting diagnostic tests
- Performing regular assessments of equipment
- Connecting patients who can't breathe on their own to ventilators
- Performing chest physiotherapy on patients to remove mucus from their lungs

## Possible Employment Opportunities:

- Hospitals
- Clinics
- Diagnostic laboratories
- Newborn, pediatric and adult critical care units
- Home care
- Transport care

# ASSOCIATE DEGREE - RESPIRATORY CARE

## Student Learning Outcomes

Upon completion of the Respiratory Care program, graduates will be able to:

- Demonstrate skill in patient examination, assessment, treatment recommendation, and appropriate therapeutic intervention of various cardiopulmonary diseases.
- Demonstrate proficiency in critical thinking and information management.

## Progression Requirements

Prior to entering direct patient care, students must:

- Provide negative TB test results. (If test results are more than 12 months old, they must be from a two-step test.) Applicants with prior positive results must undergo a chest X-ray.
- Provide proof of childhood MMR immunization or Titer.
- Provide proof of Hepatitis B vaccination or written refusal.
- Provide proof of chickenpox immunization (students who have not had chickenpox).
- Submit to drug screening and background check immediately prior to clinical rotations, the results of which may affect eligibility to participate in clinical rotations.

## Additional Requirements

The Carrington College Respiratory Care program provides students with the knowledge and skills to meet national standards established by the National Board for Respiratory Care (NBRC) and to competently function in the profession as an Advanced Respiratory Care practitioner (Respiratory Care practitioner for Las Vegas graduates) through formal lecture, laboratory exercises, and clinical instruction and practice.

Students are required to:

- Pass MAT 113 and ENG 113 with a grade of "C" or higher as a prerequisite for entry into the Respiratory Care courses that begin in semester two.
- Pass all other program units/courses with a grade of "C" or higher. Failure to achieve the minimum required score in any unit will require subsequent demonstration of mastery, as outlined in the course syllabus.
- Score a minimum of 70% on a comprehensive exam administered at the end of each semester to qualify for advancement to the next semester.
- Pass an entry-level Certified Respiratory Care assessment exam with minimum scores outlined in the course syllabus.
- Pass an approved written Registered Respiratory Care assessment exam with minimum score outlined in the course syllabus.
- Pass an approved Clinical Simulations assessment exam with minimum score outlined in the course syllabus.
- Enroll in one general education course only while simultaneously enrolled in core Respiratory Care course (Las Vegas only).

## PROGRAM REQUIREMENTS – Phoenix Westside\*

General education courses may be taken in any order unless determined by prerequisites. Core courses must be taken in the sequence listed below.

Respiratory Care Courses		Lecture Hours	Lab Hours	Clinical Hours	Semester Credit Hours
ENG 113	English Composition I†	45	0	0	3
COM 131	Introduction to Communication†	45	0	0	3
PSY 113	General Psychology†	45	0	0	3
SOC 113	Introduction to Sociology†	45	0	0	3
MAT 113	College Mathematics†	45	0	0	3
RRT 101	Applied Sciences†	40	0	0	2.5
RRT 103	Medical Terminology	10	0	0	0.5
RRT 104	Anatomy and Physiology I	30	0	0	2
RRT 112	Anatomy and Physiology II	40	0	0	2.5
